

REMIND

Remind is an app that allows you to join our “class” so when reminders are sent out, they go to everyone in the group who has signed up. We will be using this form of communication with parents this summer. We have used this in the past, but Remind put a cap on how many people can be in each group. We went over our limit last year and it is going to cost us to upgrade. So, we divided camp up into four groups based on our camp age groups to decrease the number of people in each group. If you have children in more than one age group, then you will need to join each group that fits your situation. All families from previous summers have been deleted and you will need to join the correct group(s) each summer from now on.

PLEASE sign up for the correct remind. We will be using this to remind families about field trips, let you know where pick up is (if it changes due to weather conditions), if the park location is cancelled due to weather (if you signed up through the Y, we do not cancel for weather due to having a permanent structure), to send out the newsletter, etc. If a field trip is running late, we will put it on Remind.

If you have a smart phone:

1. Download the app.
2. Create an account.
3. Inside the app, click on “join a class” and type in the correct code below.

If you do not have a smart phone you can:

- 1 – Send a text message – the phone number you would type in is: 81010
- 2 – In the message location type in the correct code from below. You will get a message stating you have joined the group. (must do one code at a time)

Age group and Remind Codes:

Going into grades K or 1: Wethonkitha Pioneers Code: @2026pio

Going into grades 2 or 3: Wethonkitha Explorers Code: @2026expl

Going into grades 4 or 5: Wethonkitha Voyagers Code: @2026voya

Going into grades 6, 7, or 8: Wethonkitha LIT Code: @welit2026
